

**AMENDMENTS TO THE CLAIMS**

This listing of claims replaces all previous versions and listings of claims in this application.

**Claim Listing:**

Claims 1-31: (Canceled).

32. (New) Ballistic protection suitable for protection against projectiles, splinters, and sharp objects, the protection comprising:

at least two substantially plate-shaped protective elements;

one or more layers of liquid stored in one or more containers; and

one or more elastic bodies,

wherein the one or more layers of liquid is arranged between the at least two substantially plate-shaped protective elements and wherein the at least two substantially plate-shaped protective elements are drawn towards each other by being connected to the one or more elastic bodies.

33. (New) The protection according to Claim 32, wherein the liquid is stored in one or more flexible containers.

34. (New) The protection according to Claim 33, wherein a number of the one or more flexible containers at least partly overlap one another.

35. (New) The protection according to Claim 33, wherein at least two of the one or more flexible containers are interconnected in a group, wherein the group of interconnected flexible containers comprises a filling and tapping device.

36. (New) The protection according to Claim 32, wherein the one or more flexible containers is releasably mounted between the at least two substantially plate-shaped protective elements.

37. (New) The protection according to Claim 32, further comprising:

filling means for allowing filling the one or more containers; and

tapping means for allowing drinking the one or more layers of liquid.

38. (New) The protection according to Claim 37, wherein one or more flexible containers are interconnected in a group, and the group of interconnected flexible containers comprises a filling and tapping device.

39. (New) The protection according to Claim 32, further comprising distance pieces arranged to prevent contact from being made between the at least two substantially plate-shaped protective elements.
